WELCOME TO PRAGUE

Dear colleagues,

The UIP Chapter Meeting from September 15th – 17th 2011 in Prague, organized by Jaroslav Strejček will be a great opportunity to update your phlebological knowledge, to meet old friends and make new ones.

Many things have been changing in Phlebology within the last 10 years and lots of actual information on diagnosis and treatment of venous diseases will be communicated in Prague. Aside of the scientific sessions with invited speakers and free papers there are keynote lectures by the leaders in their field and symposia on special topics.

Not only phlebology but also the UIP has developed towards an active union of phlebological societies aiming to improve science, communication and education in the venous field. To reach these goals Prague will be a major corner store.

The historic but also modern atmosphere of Prague will give a good frame for scientific information, discussions and also for a good free time in between.

I'm looking forward to meeting you in Prague.

A handwritten signature in black ink, appearing to read 'E. Rabe'.

Eberhard Rabe
President of the UIP

Dear phlebologists from all over the world,

The Czech Society of Phlebology, a member of Union International de Phlébologie (UIP) and the Czech Medical Association J. E. Purkyně, is proud to welcome you at the International Congress of UIP – European Chapter Meeting in Prague, held at the Clarion Congress Hotel.

The entire Congress is also held under the auspices of the President of the Czech Medical Association J. E. Purkyně – Prof. Jaroslav Blahoš, MD, DSc, President of the Czech Medical Chamber – Milan Kubek, MD and furthermore the deans of the 3 medical faculties of the Charles University in Prague – Prof. Tomáš Zima, MD, DSc, Assoc. Prof. Ondřej Hrušák, MD, PhD and Prof. Michal Anděl, MD, PhD as well as the dean of Komenský University in Bratislava, Slovakia – Prof. Peter Labaš, MD, PhD.

We have prepared a highly scientific and intriguing programme for over 900 delegates, comprising keynote lectures, traditional morning session, lectures and consensus reports, while afternoons would be designated for concurrent abstract sessions, company symposia and poster discussions. Some member societies took our offer to present their own sessions to present themselves.

In addition to the scientific activity the organising committee prepared a great social programme, including the Welcome cocktail and Gala dinner in the Municipal House, a national cultural landmark, which is one of the most significant Art Nouveau buildings in Prague.

Once again welcome to Prague at what we expect to be an outstanding meeting...

A handwritten signature in black ink, appearing to read 'J. Strejček'.

Jaroslav Strejček
Congress President

ACKNOWLEDGEMENTS

The Organizing and Scientific Committees express their gratitude to the following companies for their generous contribution to the success of the Congress:

PLATINUM SPONSORS

medi is world-wide one of the leading manufacturers of the following product lines:

- medical compression stockings (for the treatment of venous disorders)
- anti-embolism-sockings (for the prophylaxis of thrombosis in hospitals)
- compression garments for direct use after plastic surgery
- orthopaedic elastic supports and braces, orthosis for the ankle, knee, hip, back, spine, elbow and shoulder
- prosthetics for the lower limbs

All our products are developed in close cooperation with leading doctors world-wide and distributed through competent medical companies, health care stores and pharmacies.

medi products are used in leading public and private hospitals all over the world.

medi produces medical aids for different clinical and life situations. Medical compression stockings for patients with venous and oedematous disorders have made medi the world leader in this field.

Servier is a private, independent French pharmaceutical company, led by the founder Dr Jacques Servier. Servier is involved in research and development, manufacture and marketing of ethical pharmaceuticals, and is present in 140 countries.

Discovery of major innovative treatments have been achieved, among them Protelos, Procoralan, Valdoxan and Daflon 500mg (Micronized Purified Flavonoid Fraction): the most prescribed venoactive drug in the world acting at the core of venous inflammation.

Life for legs – this is the commitment of the world market leader in medical compression – SIGVARIS.

SIGVARIS stands for 150 years of expertise and presence in the market and was founded in 1864 in Winterthur – Switzerland. Since over 50 years SIGVARIS is dedicated to medical compression products.

Our know-how in textile compression offers products to our customers in the areas of prevention, medicine and sports.

SIGVARIS products stand for medical efficacy, vitality and endurance as well as aesthetics and wearing comfort.

SIGVARIS – compression is our passion!

SPONSOR OF CONGRESS BAGS, NOTE PADS AND PENS

STD Pharmaceutical Products Ltd is a family run business which started in 1967 making a sclerosant called STD injection (now called Fibro-Vein). STD now offers products to support sclerotherapy and iontophoresis.

For the sclerotherapist STD has a full range of products from needles, syringes, bandages etc. to books and videos to help in training. The main product is the sclerosant Fibro-Vein, effective on all sizes of veins from truncal to spider veins.

STD also promotes iontophoresis, a simple but very effective treatment for hyperhidrosis of the hands and/or feet. The procedure involves passing a low voltage electric current through the hands or feet using a water bath. After the initial treatment phase, only weekly to monthly maintenance sessions are required.

The range offers machines suitable for hospitals, clinics as well as smaller units for home use. The treatment provides a painless, non invasive first line of treatment for hyperhidrosis.

SPONSOR OF BADGES

We are a medium-sized pharmaceutical company founded in 1912 located in Wiesbaden, Germany. Kreussler is the originator of Aethoxysklerol® with the active ingredient Polidocanol (Lauromacrogol 400) for sclerotherapy of varicose veins, hemorrhoids, and esophageal varices. Sold in more than 50 countries it is widely considered as the world's leading sclerosing agent. Aethoxysklerol® is available in different concentrations which can be used as liquid or foam for the treatment of all types of varicose veins. Recent milestones are the FDA approval in the United States and the foam application for therapy of large varicose veins in Germany.

The portfolio in the field of phlebology is completed in several countries by compression bandages, a portable pocket sized instrument for locating veins (Veinlite LED®), and a syringe system for the optimal foam production (EasyFoam® Kit).

SCIENTIFIC INFORMATION

AUDIO-VISUAL FACILITIES

Speakers are requested to come to the Speakers' preview room "QUADRANT" in order to validate their presentation according to the following schedule:

Morning sessions: no later than the afternoon of the day before their communication
Afternoon sessions: no later than noon of the day of their communication

Please respect this schedule, otherwise we cannot guarantee the necessary technical compatibility.

Preview technical staff will guide and assist the speakers for checking their presentations. A training computer will be available in order to help the speakers to use and be comfortable with the software and equipment in the Congress rooms.

The preview room will be opened:

Wednesday, September 14	15.00 – 19.30
Thursday, September 15	08.00 – 18.00
Friday, September 16	08.00 – 18.00
Saturday, September 17	08.00 – 14.00

POSTERS

Posters will be displayed in the room MERIDIAN. Your poster may be mounted starting **September 14, 15.00** and it should be removed **on September 17 after 16.00**.

The presenting authors are kindly requested to be available at their poster presentation for questions and discussion for **at least 30 minutes on September 16 (posters No. M01 – M18) and September 17 (posters No. M19 – M38) between 13.30 and 14.00**.

Poster panels are covered by carpet, pins will be provided, **poster panel size 2 m (height) x 1 m**.

CERTIFICATE OF ATTENDANCE

A certificate of attendance will be provided on request at the registration desk at the end of the Congress.

GENERAL INFORMATION

ADMISSION

The participant's name badges are provided at the registration desk. All delegates are requested to wear the badge throughout the Congress.

REGISTRATION FEES

(on-site registration incl. 20% VAT)

Full registration fee (physicians)	800 EUR
Nurses, vascular technologists	400 EUR
Accompanying persons	120 EUR
Gala Dinner (Sept. 16)	100 EUR

Registration for participants includes:

- admission to the Congress and access to the scientific sessions
- access to the exhibition
- Congress bag
- Congress documentation
- Congress badge
- certificate of attendance
- refreshment served during coffee breaks
- welcome cocktail

Registration for accompanying persons includes:

- access to the exhibition
- refreshment served during coffee breaks
- welcome cocktail
- sightseeing tour of Prague

REGISTRATION HOURS

Wednesday, September 14	15:00 – 20:00
Thursday, September 15	07:30 – 18:00
Friday, September 16	07:30 – 18:00
Saturday, September 17	07:30 – 14:00

OFFICIAL LANGUAGE

The official language of the Congress is English without simultaneous translation.

OPENING CEREMONY AND WELCOME COCKTAIL

The Opening Ceremony will be held on Wednesday, September 14 from 19.00 in the main Congress hall ZENIT+NADIR and will be followed by the Welcome Cocktail in the foyer and exhibition hall MERIDIAN. The entrance is free for all registered participants and accompanying persons.

GALA DINNER

„Welcome to the Kingdom of Swing“

The Gala dinner on September 16 will be held in the Municipal House / Obecní dům (Republiky Square 5, Prague 1) from 20.00. Transportation from the Congress venue: by Metro (underground), stop “Náměstí republiky”, line B. The price for 1 person: 100 EUR (incl. VAT). The number of tickets is limited!

COFFEE BREAKS

During the Congress official breaks coffee, tea and refreshment will be served free of charge to all registered participants in the Congress foyer and in the room MERIDIAN.

EXHIBITION

An industrial exhibition of pharmaceutical, diagnostic and other companies will be given the opportunity to display their products, services and new technical solutions in the Congress foyer and in the room MERIDIAN.

Free paper session: Compression therapy **LV2.5**

Chairpersons: Malouf M. – Ragg J. C.

- LV2.5-1** Uhl Jean-Francois: A WRONG DOGMA IN COMPRESSION THERAPY: LOW PRESSURE FOR SUPERFICIAL VEINS, STRONG PRESSURE FOR DEEP VEINS
- LV2.5-2** Cornu-Thénard André: EDEMA REDUCTION BY ELASTIC STOCKINGS, A TECHNIQUE USED SINCE 1985
- LV2.5-3** Benigni Jean-Patrick: INCREASED STIFFNESS COMPRESSION STOCKINGS
- LV2.5-4** Uhl Jean-Francois: EVALUATION OF SYMPTOMS IN CVD PATIENTS WITH FOOT STATIC DISORDERS: A PROSPECTIVE STUDY
- LV2.5-5** Vega Fernando: PRESSURE AND COMPRESSION, DIFFERENT CONCEPTS
- LV2.5-6** Benigni Jean-Patrick: FRENCH OFFICIAL RECOMMENDATIONS FOR MEDICAL COMPRESSION
- LV2.5-7** Ragg Johann C.: FIRST EXPERIENCE WITH A NEW COMPRESSION MODALITY (PhleboPress®)
- LV2.5-8** Benigni Jean-Patrick: EFFICIENCY ON PAIN REDUCTION OF A THIGH PAD UNDER ELASTIC COMPRESSION AFTER STRIPPING OF THE GREAT SAPHENOUS VEIN: RESULTS OF A CASE-CONTROL STUDY

15.00 – 17.00 / AQUARIUS + TAURUS

SIGVARIS Symposium **AT2.6**

Chairperson: Rabe E.

SIGVARIS

- AT2.6-1** Jünger Michael: SKIN CLIMATE AND TENCEL C: INNOVATIONS IN FIBRE TECHNOLOGY – THE TENCEL C FIBRE
- AT2.6-2** Van den Bos Renate: ENDOVENOUS PROCEDURES: EVIDENCE BASED ENDOVENOUS TREATMENT OF VARICOSE VEINS
- AT2.6-3** Meissner Mark: COMPRESSION: UPDATE IN COMPRESSION TREATMENT
- AT2.6-4** Carpentier Patrick: THROMBOSIS: DEEP VENOUS THROMBOSIS – WHAT IS EVIDENCE BASED?

16.00 – 16.30 COFFEE BREAK

16.30 – 18.30 / ZENIT + NADIR

Free paper session: Varicose veins surgery ZN2.7*Chairpersons: Ramelet A. A. – Veverková L.*

- ZN2.7-1** Veverková Lenka: FAILURE METHODS TREATMENT OF VARICOSE VEINS
- ZN2.7-2** Vellettaz Ruben: ANESTHETIC MANAGEMENT OF EVLT
- ZN2.7-3** Ciubotaru Valerian: VANST – A DIFFERENT APPROACH IN AESTHETIC PHLEBOLOGY
- ZN2.7-4** Bihari Imre: A CZECH INVENTION FOR PHLEBOLOGY: THE SAW-KNIFE. OUR MODIFICATIONS AND RESULTS
- ZN2.7-5** Sriitharan Kaji: PATIENTS HAVE A POOR UNDERSTANDING OF THE RISKS & BENEFITS OF VARICOSE VEIN TREATMENT
- ZN2.7-6** Radu Daniela: ESTHETIC PROCEDURES IN THE SURGICAL TREATMENT OF THE INFERIOR LIMB VARICES
- ZN2.7-7** Mestres Sales José M.: VALUATION OF POSTOPERATIVE PAIN IN PATIENTS UNDERGOING VARICOSE VEINS STRIPPING VERSUS RADIOFREQUENCY
- ZN2.7-8** Haruta Naoki: METHODS OF OUR SIMPLIFIED SEPS (SUBFASCIAL ENDOSCOPIC PERFORAIONG VEINS SURGERY) WITH THE USE OF EndoTIP® CANNULA – DIFFERENCES FROM THE ORIGINAL GLOVICZKI'S METHOD
- ZN2.7-9** Ciubotaru Valerian: THE AMBULATORY SURGICAL TREATMENT OF THE VARICOSE VEINS THROMBOPHLEBITIS
- ZN2.7-10** Camilli Daniele: THE VENOUS STRETCHING VALVULOPLASTY: RESULTS IN THE FIRST SERIES OF 32 CASES
- ZN2.7-11** Ciubotaru Valerian: DIAGNOSIS AND TREATMENT DIFFICULTIES IN THE ASSOCIATION OF THE SAPHENO-POPLITEAL VALVE INSUFFICIENCY WITH THE INSUFFICIENCY OF THE OBLIQUE COMMUNICATING VEIN OF THE CALF
- ZN2.7-12** Belentsov Sergey: SMALL SAPHENOUS VEIN INCOMPETENCE: WHAT IS THE PREFERABLE METHOD OF TREATMENT?

16.30 – 18.00 / TYCHO + KEPLER

Servier satellite symposium – Making sense of venous pain TK2.8*Chairpersons: Scuderi A. – Strejček J.*

- TK2.8-1** Scuderi Angelo: INTRODUCTION
- TK2.8-2** Rabe Eberhard: VENOUS PAIN: A SIGNAL OF THINGS TO COME
- TK2.8-3** Danziger Nicolas: WHY VENOUS PAIN IS SO SPECIFIC
- TK2.8-4** Bouskela Eliete: IS THE MICROCIRCULATION IMPLICATED IN VENOUS PAIN?
- TK2.8-5** Nicolaidis Andrew: BENEFITS OF DAFLON 500 MG IN REDUCING VENOUS PAIN AND SYMPTOMS
- TK2.8-6** Strejček Jaroslav: CONCLUSION

Session of Latinoamerican societies**– Surgery, foam sclerotherapy or endovascular ablation****What's your choice in the management of superficial venous insufficiency? LV2.9***Presidents of honour: Scuderi Angelo / Rosli Never**Presidents: Andoniades Osvaldo / Tkach Eduardo**Moderators: Schapira Armando / Lesnik David**Secretaries: Ramírez Cadena Cuauhtémoc / Roca Sergio*

Panel Members:

Balboni Daniel, Pedrazzoli Alejandro, Igarzábal Carlos, Guzman Angel, González-Zeh Rodrigo, Chunga Chunga Juan, Vega Rasgado Fernando, Ulloa Dominguez Jorge, Intriago Giler Ernesto, Martínez Granados Alberto, Canata Benitez Victor

Morning session: Technical pearls for sclerotherapy TK3.0*Raymond-Martimbeau Pauline***Keynote lectures ZN3.1***Chairperson: Guex J. J.*

- ZN3.1-1** Proebstle Thomas: 10 YEARS OF ENDOTHERMAL VEIN ABLATION - LATEST ACHIEVEMENTS AND FUTURE PERSPECTIVES
- ZN3.1-2** Allegra Claudio: FROM FLAVANOIDS TO BIOFLAVANOIDS
- ZN3.1-3** Scuderi Angelo: THE MANAGEMENT OF THE VENOUS DISEASE: STATE OF THE ART
- ZN3.1-4** Vasquez Michael A.: REVISION OF THE VENOUS CLINICAL SEVERITY SCORE: VENOUS OUTCOMES CONSENSUS STATEMENT SPECIAL COMMUNICATION OF THE AMERICAN VENOUS FORUM AD HOC OUTCOMES WORKING GROUP
- ZN3.1-5** Cornu-Thénard André: ELEPHANTIASIS IN BURKINA-FASO: WHAT DO WE HAVE DONE?

Free paper session: Radiofrequency in the treatment of varicose veins ZN3.2*Chairpersons: Proebstle T. – Marušiak J.*

- ZN3.2-1** Stuckey Charles: ENDOVENOUS RADIOFREQUENCY ABLATION – A FOUR YEAR EXPERIENCE WITH THE ClosureFast CATHETER
- ZN3.2-2** Delbridge Michael: APPLICATION OF HIGHER ENERGY DURING RFITT USING THE OLYMPUS CELON SYSTEM BY USING A SLOWER PULL-BACK SPEEDS IS NOT ASSOCIATED WITH A HIGHER COMPLICATION RATE
- ZN3.2-3** Belentsov Sergey: RADIOFREQUENCY ABLATION OF SAPHENOUS TRUNKS WITH THE CLOSUREFAST CATHETER, IMMEDIATE RESULTS AND FOLLOW-UP
- ZN3.2-4** Marušiak Jan: RADIOFREQUENCY ABLATION OF GSV AS A PART OF THE THERAPY OF CHRONIC VENOUS INSUFICIENCY

- ZN3.2-5** Proebstle Thomas: CYANOACRYLATE SUPER-GLUE GREAT SAPHENOUS VEIN ABLATION: PRELIMINARY RESULTS OF A FIRST-IN-MAN FEASIBILITY STUDY OF A NO-COMPRESSION-NO-LOCAL-ANESTHESIA TECHNIQUE
- ZN3.2-6** Milleret Rene: HOW CAN WE EVALUATE LATE RESULTS OF ENDOVENOUS TREATMENTS?
- ZN3.2-7** Uhl Jean-Francois: CELON: A NEW RADIO FREQUENCY TECHNIQUE FOR THERMICAL ABLATION OF THE GREAT SAPHENOUS VEIN: MULTICENTER PROSPECTIVE STUDY ABOUT 100 CASES: 2 Y RESULTS
- ZN3.2-8** Delbridge Michael: VEIN OCCLUSION RATES AFTER RADIOFREQUENCY (RFITT) USING THE OLYMPUS CELON SYSTEM DEPEND ON THE ENERGY DELIVERED
- ZN3.2-9** Žernovický František jr.: FAST CLOSURE + INTERNAL PERIVASCULAR COMPRESSION = PUSHING THE LIMITS FOR MINIINVASIVE SURGERY OF VARICOSE VEINS

11.30 – 13.00 / TYCHO + KEPLER

Free paper session: Lymphology **TK3.3**

Chairpersons: *Cornu-Thénard A. – Michelini S.*

- TK3.3-1** Passariello Fausto: GRAIN MEASURES IN THE EXTRACELLULAR MATRIX
- TK3.3-2** Michelini Sandro: OUR EXPERIENCE ON LIPOLYMPHEDEMA
- TK3.3-3** Myshentsev P.: THE FIRST EXPERIENCE OF APPLICATION OF GRAVITATION INFLUENCE DURING THE COMPLEX TREATMENT OF PATIENTS DISEASED BY LYMPHEDEMA OF LOWER EXTREMITIES
- TK3.3-4** Mateřánková Alexandra: HOW TO COPE WITH SECONDARY LYMPHOEDEMA, RECURRING ERYSIPELAS, LYMPHORRHOEA?
- TK3.3-6** Passariello Fausto: THE ULTRASOUND INTERNAL VOLUMETRY IN THE ASSESSMENT OF LYMPHEDEMA
- TK3.3-7** Michelini Sandro: GENETIC AND CLINICAL STUDY OF ITALIAN FAMILIES WITH PRIMARY LYMPHEDEMA

11.30 – 13.00 / AQUARIUS + TAURUS

Free paper session: Venous leg ulcers **AT3.4**

Chairpersons: *Benigni J. - P. – Pospíšilová A.*

- AT3.4-1** Sugawara Hiromitsu: USEFULNESS OF THREE-PORT SYSTEM SUBFASCIAL ENDOSCOPIC PERFORATING VEIN SURGERY USING CURVED FORCEPS
- AT3.4-2** Žernovický František: RECURRENT LEG ULCERS
- AT3.4-3** Benigni Jean-Patrick: NON-HEALING VENOUS ULCERS: USE AND EFFICIENCY OF VAROLAST BANDAGING WITHOUT WOUND DRESSINGS
- AT3.4-4** Zelenková Hana: MOST COMMON MISTAKES IN THE THERAPY AND DIAGNOSIS OF CHRONIC ULCERATIONS
- AT3.4-5** Stojiljkovic Vladimir: RISK FACTORS RELATED TO THE FAILURE OF VENOUS LEG ULCERS TO HEAL WITH COMPRESSION TREATMENT
- AT3.4-6** Peric Dejan: THE INFLUENCE OF DIFFERENT SUB-BANDAGE PRESSURE VALUES ON VENOUS LEG ULCERS HEALING WHEN TREATED WITH COMPRESSION THERAPY
- AT3.4-7** Hnátek Lukáš: THE FOAM SCLEROTHERAPY A SAFE AND FAST INTERVENTION FOR ACCELERATION OF VENOUS ULCER HEALING

AT3.4-8 Benigni Jean-Patrick: COMPRESSION STOCKINGS FOR TREATING VENOUS LEG ULCERS

AT3.4-9 Stuckey Charles: INCOMPETENT PERFORATORS – THE UNSEEN VILLAIN

AT3.4-10 Labaš Peter: SURGICAL TREATMENT OF VENOUS LEG ULCER

14.00 – 16.00 / ZENIT + NADIR

Free paper session: Sclerotherapy II **ZN3.5**

Chairpersons: Raymond-Martimbeau P. – Frullini A.

ZN3.5-1 Vega Fernando: ADVANTAGES OF SCLEROSIS WITH FOAM OF POLIDOCANOL PREPARED WITH OXYGEN

ZN3.5-2 Ulloa Jorge H.: COMPARISON OF FOAM STABILITY OF NOVEL SCLEROSING AGENT LAPIDIUM CLORHYDRATE WITH TRADITIONAL POLIDOCANOL FOAM USING REAL TIME VIDEO ASSISTED MEASUREMENT

ZN3.5-3 Tellings Sarah: POLIDOCANOL CONCENTRATION AND TIME AFFECT THE PROPERTIES OF FOAM USED FOR SCLEROTHERAPY

ZN3.5-4 Sommer Anja: ULTRASOUND-GUIDED FOAM SCLEROTHERAPY VS SURGERY FOR THE INCOMPETENT GREAT SAPHENOUS VEIN: A RANDOMISED CONTROLLED TRIAL

ZN3.5-5 Raymond-Martimbeau Pauline: FOAM SCLEROTHERAPY COMPLICATIONS RELATED TO AIR EMBOLISMS

ZN3.5-6 Ragg Johann C.: 3D REAL TIME IMAGES OF FOAM SCLEROTHERAPY: FIRST IMPRESSIONS

ZN3.5-7 Passariello Fausto: STS AND POL FRACTAL DIMENSION. AN UNIQUE GEOMETRICAL MODEL FOR THE SCLEROSING FOAM

ZN3.5-8 Hiller Heinz: MANAGEMENT OF LARGE DIAMETER VEINS AND COMPLEX VENOUS ULCERS WITH 1 % LAPIDIUM CHLORHYDRATE FOAM THERAPY

ZN3.5-9 Frullini Alessandro: ENDOTHELIN RELEASE AFTER FOAM SCLEROTHERAPY

ZN3.5-10 Fattahi Khalil: FOAM WASHOUT SCLEROTHERAPY A NEW METHOD GEARED TOWARD REDUCING RISKS ASSOCIATED WITH CURRENT REGULAR FOAM SCLEROTHERAPY

ZN3.5-11 Cavezzi Attilio: POSSIBLE INNOVATIONS IN FOAM SCLEROTHERAPY: EXPERIMENTAL DATA AND PRELIMINARY FINDINGS

14.00 – 16.00 / TYCHO + KEPLER

Symposium supported by medi

– Compression therapy in chronic oedema exciting new aspects **TK3.6**

Chairpersons: Strejček J. – Partsch H.

TK3.6-1 Rabe Eberhard: PREVALENCE AND INCIDENCE OF LEG OEDEMA IN ADULTS

TK3.6-2 Cavezzi Attilio: PHLEBOLYMPHOEDEMA – FROM DIAGNOSIS TO THERAPY

TK3.6-3 Mortimer Peter: REDUCTION OF LEG OEDEMA BY COMPRESSION – STARLINGS EQUILIBRIUM REVISED

TK3.6-4 Olszewski Waldemar: EFFECT OF COMPRESSION ON LYMPHATIC DRAINAGE

TK3.6-5 Damstra Robert: WHICH PRESSURE IS NEEDED TO REDUCE LYMPHOEDEMA?

- TK3.6-6** Mosti Giovanni: REDUCTION OF LEG OEDEMA BY COMPRESSION STOCKINGS – EXPERIMENTAL FINDINGS
- TK3.6-7** Morrison Nick: COMPRESSION STOCKINGS IN A HOT ENVIRONMENT
- TK3.6-8** Benigni Jean-Patrick: COMPRESSION THERAPY: FUTURE ASPECTS

14.00 – 16.00 / AQUARIUS + TAURUS

XXXVIth Czech Phlebological Days **AT3.7**

Chairpersons: Karadzos G. – Mazuch J.

- AT3.7-1** Karadzos Georgios: VENOFARMAKA
- AT3.7-2** Pospíšilová Alena: SOUČASNÉ TRENDY V MÍSTNÍ TERAPII BÉRCOVÝCH VŘEDŮ
- AT3.7-3** Roztočil Karel: MÁ FARMAKOTERAPIE VÝZNAM V LÉČBĚ BÉRCOVÝCH VŘEDŮ?
- AT3.7-4** Frankovičová Mária: CHRONICKÉ VENÓZNE OCHORENIE
- AT3.7-5** Karadzos Georgios: IATROGENNÍ TRAUMATA TEPEN
- AT3.7-6** Mazuch Július: SURGICAL TREATMENT OF EXTREME VARICES OF LOWER EXTREMITIES WITH SEVERE CHRONIC VENOUS INSUFFICIENCY AND THE TROPHIC CHANGES AFTER MORBID OBESITY
- AT3.7-7** Spáčil Jiří: DIAGNOSTIKA PREKLINICKÉHO ONEMOCNĚNÍ TEPEN
- AT3.7-8** Karadzos Georgios: LUXACE KOLENNÍHO KLOUBU PO TEP A DISEKCE AP
- AT3.7-9** Petrlík Martin: CHRONICKÁ ŽILNÍ NEDOSTATEČNOST – LÉČEBNÉ MOŽNOSTI
- AT3.7-10** Švestková Sabina: KOMBINOVANÁ LÉČBA ULCUS CRURIS VENOSUM – KAZUISTICKÉ SDĚLENÍ
- AT3.7-11** Kašpar Svatopluk: NOVÁ GUIDELINES AMERICAN VENOUS FORUM PRO LÉČBU VARIXŮ DOLNÍCH KONČETIN

14.00 – 16.00 / LEO + VIRGO

Symposium in cooperation with Central European Vascular Forum **LV3.8**

Chairperson: Allegra C. – Štvrtinová V.

- LV3.8-1** Allegra Claudio: SUPERFICIAL THROMBOPHLEBITIS: THROMBOEMBOLISM RISK
- LV3.8-2** Štvrtinová Viera: SUPERFICIAL THROMBOPHLEBITIS: CEVF CONSENSUS PROPOSAL FOR DIAGNOSIS AND TREATMENT
- LV3.8-3** Džupina Andrej: TREATMENT OF SUPERFICIAL THROMBOPHLEBITIS IN SLOVAK REPUBLIC, REGISTER
- LV3.8-4** Hirmerová Jana: SUPERFICIAL THROMBOPHLEBITIS, ANTICOAGULATION AND CALISTO TRIAL – FINALLY A PIECE OF EVIDENCE?

16.00 – 16.30 COFFEE BREAK

16.30 – 18.00 / ZENIT + NADIR

Free paper session: Sclerotherapy III **ZN3.9**

Chairpersons: Cavezzi A. – Parsi K.

- ZN3.9-2** Žernovický František jr.: IRRIGATION SCLEROTHERAPY – A NEW POSSIBILITY

- ZN3.9-3** Parsi Kurosh: LOW CONCENTRATION DETERGENT SCLEROSANTS INDUCE PLATELET ACTIVATION BUT INHIBIT AGGREGATION IN VITRO
- ZN3.9-5** Stenson Katherine: CLARIVEIN - A NOVEL TREATMENT FOR VENOUS INCOMPETENCE
- ZN3.9-6** Reichelt Antonio Carlos: SEVERE DRUG-INDUCED SKIN REACTION AFTER SCLEROTHERAPY
- ZN3.9-7** Mikadze Igor: SCLEROSING EFFECT ON VARICOSE VEINS OF ANY SIZE IN ANY STAGE OF CVI
- ZN3.9-8** Guggenbichler Stephan: GERMAN REGISTRY ABOUT SCLEROTHERAPY OF LEG VARICES
- ZN3.9-9** Parsi Kurosh: IN VITRO EFFECTS OF DETERGENT SCLEROSANTS ON CLOT FORMATION AND LYSIS

16.30 – 18.00 / TYCHO + KEPLER

**Session on Vein Consult Programme
– Vein Consult Program, results from the first 70 000 screened patients TK.3.10**

Chairpersons: Rabe E. – Guex J. J.

- TK3.10-1** Rabe Eberhard: INTRODUCTION
- TK3.10-2** Rabe Eberhard: OBJECTIVE AND METHODS OF THE VEIN CONSULT PROGRAM
- TK3.10-3** Puskas Attila: CLINICAL RESULTS FROM THE FIRST 13 COUNTRIES
- TK3.10-4** Mansilha Armando: THE IMPACT OF LEG PROBLEMS ON THE QUALITY OF LIFE AND THE COSTS OF VENOUS DISEASE
- TK3.10-5** Fernandez Quesada Fidel: RESULTS DRAWN FROM THE VENOUS SPECIALISTS
- TK3.10-6** Guex Jean-Jérôme: CONCLUSION

16.30 – 18.00 / AQUARIUS + TAURUS

Endovenous ablation of saphenous veins AT3.11

Chairmen: Proebstle T. – Strejček J.

- AT3.11-1** Strejček Jaroslav: RFITT FOR SAPHENOUS ABLATION
- AT3.11-2** Kašpar Svatopuk: THE ROLE OF DIFFERENT LASER WAVELENGTHS AND FIBER TIPS
- AT3.11-3** Van den Bos Renate: STEAM VEIN SCLEROSIS
- AT3.11-4** Elias Steve: CLARIVEIN MECHANO-CHEMICAL ABLATION
- AT3.11-5** Frullini Alessandro: NON-ABLATIVE CONCEPTS OF ENDOVENOUS LASER
- AT3.11-6** Rasmussen Lars: PROSPECTIVE RANDOMIZED TRIAL OF SURGERY VS RF VS LASER VS SCLERO-FOAM
- AT3.11-7** Davies Alun: QUALITY OF LIFE AND QUALY OF DIFFERENT ABLATION TECHNIQUES

20.00 GALA DINNER – MUNICIPAL HOUSE

09.00 – 11.00 / ZENIT + NADIR

Free paper session: Endovenous laser treatment I ZN4.1*Chairpersons: Kašpar S. – Partsch H.*

- ZN4.1-1** Zerweck Christof: ENDOVENOUS LASER ABLATION OF VARICOSE PERFORATING VEINS WITH THE 1470 DIODE LASER USING THE NEW RADIAL FIBER SLIM – 1 MONTH FOLLOW-UP
- ZN4.1-2** Vellettaz Ruben: EVLT COMPLICATIONS
- ZN4.1-3** Narvaes Luciane B.: ENDOVENOUS LASER ABLATION: OBESITY AND DELIVERED LEED
- ZN4.1-4** Van den Bos Renate: ENDOVENOUS SIMULATED LASER EXPERIMENTS AT 940 NM AND 1470 NM SUGGEST WAVELENGTH INDEPENDENT TEMPERATURE PROFILES
- ZN4.1-5** Vakhitov Mavlet: SHORT-TERM RESULTS OF ENDOVENOUS LASER ABLATION COMBINED WITH CROSSECTOMY FOR VARICOSE VEINS TREATMENT
- ZN4.1-6** Schwarz Thomas: ENDOVENOUS LASER ABLATION OF VARICOSE VEINS WITH THE 1470 DIODE LASER USING A RADIAL FIBER – 1 YEAR FOLLOW-UP
- ZN4.1-7** Rodriguez Neftali: MEXICAN EXPERIENCE IN 896 PATIENTS WITH 980 NM LASER VARICOUS VEINS ABLATION
- ZN4.1-8** Ragg Johann C.: ENDOVENOUS LASER: 8 YEAR RECURRENCE IS RARE AND BENIGN COMPARED TO SURGERY
- ZN4.1-9** Parikov Matvey: ENDOVENOUS LASER ABLATION FOR THE TREATMENT OF VARICOSE OF ANTERIOR ACCESSORY SAPHENOUS VEIN
- ZN4.1-10** Narvaes Luciane B.: ENDOVENOUS LASER ABLATION USING 1470 NM DIODE AND RADIAL FIBRE FOR TREATMENT OF INCOMPETENT SAPHENOUS VEINS: OUR EXPERIENCE AND OUTCOMES

09.00 – 11.00 / TYCHO + KEPLER

Free paper session: Venous thrombosis/Venopharmacology TK4.2*Chairpersons: Andreozzi G. M. – Allaert F.*

- TK4.2-1** Andreozzi Giuseppe Maria: RATIONALE AND STUDY DESIGN OF THE SURVET TRIAL (SULODEXIDE IN SECONDARY PREVENTION OF RECURRENT DEEP VEIN THROMBOSIS)
- TK4.2-2** Kreidy Raghid: VENOUS THROMBOSIS OF LOWER EXTREMITIES IN THE YOUNG PATIENT
- TK4.2-3** Kletskin Alexander: TECHNICAL ASPECTS OF RECONSTRUCTIVE VEIN SURGERY
- TK4.2-4** Abushov Nasraddin S.: SURGICAL TREATMENT OF THE ASCENDING SAPHENOUS THROMBOPHLEBITIS IN THE SAPHENOFEMORAL JUNCTION AT PATIENTS WITH VARICOSE DISEASE
- TK4.2-5** Jawad Huda: THE EFFECT OF ONPULSE™ IN IMPROVING LOWER LIMB BLOOD FLOW IN HEALTHY VOLUNTEERS
- TK4.2-6** Delic Javorka: THE DIFFERENT MODELS OF THE POST THROMBOTIC RECANALIZATION – A PROSPECTIVE STUDY

- TK4.2-7** Casals Francesc J.: LONG-TERM TREATMENT OF VENOUS THROMBOEMBOLICAL DISEASE, WITH MODERATE-INTENSITY WARFARIN THERAPY (INR RANGE 1.8-2.5), IMPROVE PATIENT COMFORT WITHOUT INCREASING ADVERSE EVENTS
- TK4.2-8** Abushov Nasraddin S.: PROPHYLACTIC MEASURES OF DEEP VEIN THROMBOSIS AND PULMONARY EMBOLISM AFTER LOWER LIMB MAJOR AMPUTATION IN PATIENTS WITH PERIPHERAL ARTERY DISEASE

CHRONICKÉ ŽILNÍ ONEMOCNĚNÍ PŮSOBÍ IHNED!

DOXIUM^{®500}

VÁŠ PARTNER PRO LÉČBU
CHRONICKÉ ŽILNÍ NEDOSTATEČNOSTI

Zkrácená informace o přípravku DOXIUM^{®500} tvrdé tobolky

Složení: Calcii dobesilas monohydricus 500 mg v jedné tobolce. **Indikace:** Mikroangiopatie (především diabetická retinopatie), klinické manifestace chronické venózní insuficience dolních končetin, adjuvantní léčba povrchové tromboflebitidy, hemoroidy, posttrombotický syndrom a poruchy mikrocirkulace cévního původu. **Dávkování:** Jedna tobolka jedenkrát nebo dvakrát denně (500-1000 mg) během hlavního jídla. **Kontraindikace:** Přecitlivělost na složky přípravku. **Upozornění:** Přípravek není určen pro děti. Vzácně byla hlášena agranulocytóza, pravděpodobně ve spojitosti s hypersenzitivní reakcí s projevy horečky, zánětu dutiny ústní (tonsilitida), bolestí v krku, anogenitálního zánětu. Proto by pacient měl být informován, že v případě výskytu příznaků zánětu musí okamžitě informovat ošetřujícího lékaře, který provede laboratorní kontrolu červeného i bílého krevního obrazu a ev. přeruší léčbu. **Interakce:** Nejsou dosud známy. **Těhotenství a kojení:** Vzhledem k nedostatku údajů je podávání přípravku možné během těhotenství pouze v případech, kdy předpokládaný přínos léčby převáží potenciální riziko pro plod. Dobesilan vápenatý se vylučuje do mateřského mléka v malých dávkách. Z preventivních důvodů se však v době laktace doporučuje buď ukončit léčbu nebo přerušit kojení. **Nežádoucí účinky:** Vzácně se mohou vyskytnout zažívací potíže jako nauzea nebo průjem, kožní reakce a horečka. V případě zažívacích potíží je třeba snížit denní dávku přípravku nebo na přechodnou dobu léčbu přerušit. V případě kožních reakcí a horečky musí být přípravek vysazen, vzhledem k tomu, že se může jednat o alergickou reakci. **Uchovávání:** při teplotě do 25°C. **Balení:** 30 tobolek v blistru. **Držitel registrace:** OM PHARMA S.A. R. da Industria, 2 - Quinta Grande 2610 -0088 Amadora – Lisboa - Portugalsko. **Registrační číslo:** 85/249/92-C. **Datum poslední revize textu:** 9.4. 2009. Výdej přípravku je vázán na lékařský předpis. Přípravek není hrazen z veřejného zdravotního pojištění. Před předepsáním přípravku si, prosím, přečtete pozorně Souhrn údajů o přípravku. Tato zkrácená informace je platná ke dni tisku materiálu 10. 8. 2011.
